OUTDOOR PLEASURE

GREENFIELD raccoglie un ricco insieme di proposte per l'arredo residenziale e contract di aree esterne e IN/OUT. Collezioni interpretate con sapiente maestria nella ricerca estetica e materiale al fine di rendere la vita all'aperto un'esperienza di libertà e convivialità rilassata e sospesa nel tempo. Design e materia seguono un filo conduttore di eleganza e perfetta armonia integrandosi nei vari spazi d'ambiente. Lasciatevi ispirare dal lifestyle Roberti.

*GREENFIELD offers a rich collection of proposals for the residential and contract interior decoration for outdoor areas and IN/OUT. The various collections perform the result of a skilful and professional production process joined with a concrete research of design and selection of materials to make the outdoor living an experience of free and relaxing conviviality. Design and materials follow an unique line of elegance and perfect harmony integrating themselves in the different living spaces. Be inspired by the Roberti lifestyle.*

Greenfield Kollektion bietet ein reiches Sortiment für die Wohnung und für die Kontrakt-Branche an, wie auch für den IN/OUT Bereich. Die Vielfalt der Kollektionen kann die fachliche Meisterschaft, das gelernte Design und die Materialien-Suche bestens ausdrücken. Das Outdoor Leben wird somit eine freie, entspannende Lebenserfahrung die man gerne im Freundeskreis teilt. Design und Materialsuche folgen eine einzige elegante Linie und integrieren sich harmonisch in den verschiedenen Ambiente. Lassen Sie sich von Roberti Lifestyle inspirieren.

*GREENFIELD offre un riche ensemble de propositions pour l'ameublement résidentiel et prescription des espaces extérieurs et IN/OUT. Les différentes collections savent interpréter une grande maîtrise et une recherche constante de design et matériaux pour rendre la vie à l'extérieur une expérience unique et relaxante. Design et matière suivent un fil conducteur d'élegance et harmonie et sont capables de s'intégrer dans les situations les plus différentes. Laissez-vous inspirer par le lifestyle de Roberti.*

# Lipari

Un tratto essenziale ed elegante delimita le forme accoglienti di sedie, divano e poltrone. L'intreccio in searope ripercorre sentieri della memoria. Una bellezza abbagliante quanto il sole delle isole.

*An essential and elegant trait defines the cosy shapes of the chairs, sofas and armchairs. The Searope weaving goes back over the paths of memory. A dazzling beauty as the sunshine in the islands.*

Ein wesentliches und elegantes Merkmal erhebt die gemütliche Form der Stühle, Sofas und Sesseln. Das Geflecht Searope erweckt die Erinnerung an die Vergangenheit. Eine blendende Schönheit wie die Sonne auf den Inseln.

*Un trait essentiel et élégant délimite les formes accueillantes des chaises, canapés et fauteuils. Le tressage en Searope revient sur le cours des souvenirs. D'une beauté éblouissante comme le soleil des îles.*

## 02 Capri

La progettualità delle linee rivisita e reinterpreta uno stile di vita intramontabile. Scenari unici evocati da una collezione sobria e glamour allo stesso tempo; vitale ed inimitabile nel suo unico mix di eleganza internazionale.

*The planning of the lines revisits and expresses a timeless lifestyle. Unique scenarios evoked by a glamorous and clean collection at the same time, vital and incomparable in its mix of international elegance.*

Die Kreativität der Linien erneuert sich und bietet einen zeitlosen Lebensstil an. Einzigartige Szenarien werden von der nüchternen Kollektion mit Glamour hervorgerufen; lebenswichtig und unvergleichlich in seinem außergewöhnlichem internationalem Mix.

*La conception des lignes revisite et réinterprète un style de vie intemporel. Un scénario unique évoqué par une collection sobre et glamour au même temps; vitale et incomparable dans le mix de élégance internationale.*

# Portofino

Dalla cultura del mare nasce la collezione Portofino; terra, cielo ed il blu del mare: questi i colori proposti per arredi dal gusto mediterraneo.

*The Portofino collection comes from the seafaring culture; it has the colours of the earth, of the clear sky and of the deep blue water: a true mediterranean style.*

Die Kollektion Portofino kommt von einem Seemanns-Lebenstil: hat die Farben von der Erde, vom Himmel und tiefes blaues Wasser: echtes mediterrän Styl.

*La collection Portofino a ses origines dans la culture marine: les couleurs de la terre, du ciel clair et le bleu de l'eau. Un véritable style méditerranéen.*

# Technical Data Materials

Tutte le strutture sono realizzate in alluminio e/o acciaio con finitura a polveri a garanzia di leggerezza, durata e resistenza agli agenti atmosferici. Per gli intrecci si utilizzano il Sunweave (fili di polietilene) ed il Sunloom (fili di poliestere rivestiti in PVC); Sunweave e Sunloom sono filamenti testati SGS.

La collezione Portofino ha parti intrecciate con Nautic Rope (corda nautica), una corda in poliestere, robusta e resistente all'acqua ed alla salsedine. Il nuovo Searope, corda in polipropilene di ultima generazione, abbina la bellezza di un tocco naturale ad una forte robustezza, resistenza all'acqua e ai raggi UV.

Sunweave, Sunloom, Nautic Rope e SeaRope sono resistenti al caldo, al freddo, all'acqua salata ed ai raggi UV.

Nelle collezioni Lipari, Key West, Portofino e Samba Rio è previsto l'utilizzo di Batyline (originale Serge Ferrari) e Textilene.

Quegli sono tessuti in PVC con piccole forature che permettono areazione e drenaggio dell'acqua. Il batyline ed il textilene sono resistenti al caldo, al freddo e all'acqua salata.

I piani dei tavoli possono essere in vetro laccato o trasparente temperato, alluminio oppure in HPL (high pressure laminate) adatto per esterni.

La manutenzione di tutti i mobili è oltremodo semplice: lavare sia le strutture che le parti intrecciate con acqua fredda e sapone neutro aiutandosi con una spazzola a setole morbide e una spugna. Sciacquare con acqua fredda e far asciugare bene all'aria.

Non usare detergenti aggressivi o prodotti al cloro. Per maggiori dettagli si raccomanda la lettura del cartellino 'manutenzione' che viene fornito alla consegna dei mobili.

La durata dei mobili è subordinata ad un corretto utilizzo e ad una adeguata manutenzione come da noi suggerito. Si declina ogni responsabilità per danni a persone o cose causati da uso improprio ed atti vandalici.

Roberti si riserva la facoltà di apportare modifiche o migliorie senza alcun preavviso.

*All structures are in aluminum and/or stainless steel powder coated to ensure lightness, durability and resistance to atmospheric agents.*

*Sunweave (polyethylene fibres) and Sunloom (polyester fibre coated PVC) are used for weaving some furniture parts. Sunweave and Sunloom are both SGS tested materials.*

*The Portofino collection has parts woven with Nautic Rope, a robust and water resistant polyester rope.*

*The new Searope, a rope made of last generation of polypropylene, combines the beauty of a natural touch to a good resistance to water and UV rays.*

*Sunweave, Sunloom, Nautic Rope and Sea Rope withstand heat, cold, water and sea spray as well as ultraviolet rays.*

*In the collections Lipari, Key West, Portofino and Samba Rio we use the Batyline (original by Serge Ferrari) and Textilene. Both materials are in PVC with open structure allowing aeration and water drainage. Batyline and Textilene are resistant to the heat, cold and salt water.*

*Table tops may be either in tempered glass or in aluminum, or in HPL ( high pressure laminate ) suitable for outdoor use.*

*The maintenance of all furniture is very easy; just wash it with cold water and neutral soap, using a soft brush and a sponge if necessary, then rinse with cold water and let it air dry.*

*Do not use aggressive detergents or chlorine. For more detailed instructions please carefully read and follow our care and maintenance' leaflet joined to the furniture on delivery.*

*The durability of each single furniture piece is subject to proper use; we deny any responsibility for damages caused by improper use or vandalism.*

*Roberti has the right to modify or upgrade the product without prior notice.*

Alle Möbel-Gestelle sind aus Aluminium und/oder Edelstahl pulverbeschichtet die Leichtigkeit, Widerstandsfähigkeit gegen Witterungseinflüsse und Langlebigkeit garantieren. Für die geflochtene Teile werden Sunweave (Polyethilene Faser) und Sunloom (Polyester Faser beschichtet mit PVC) verwendet. Sunweave und Sunloom sind SGS getestet.

Die Kollektion Portofino hat Teile die mit Nautic Rope geflochten sind.

Nautic Rope ist ein Seil aus Polyester, fest und gleichzeitig weich.

Das schöne neue SEAROPE, Polypropylenseil, ist ein neuer Vorschlag mit einer natürlichen Note, doch ist robust, Wasser- und UV-Strahlen beständig.

Sunweave, Sunloom, Nautic Rope und Searope sind beständig gegen Hitze, und Kälte Wasser und Salzurückstände wie auch gegen UV-Strahlen.

Das Batyline ( original Serge Ferrari ) und das Textilene werden in den Kollektionen Lipari, Key West, Portofino und Samba Rio verwendet.

Diese Gewebe sind aus PVC und erlauben eine gute Belüftung und lassen das Wasser ablaufen. Batyline und Textilene sind Hitze- und Kälte beständig, aber auch gegen Salzwasser.

Die Tischplatten sind, aus lackiertem und gehärtetem Glas, oder Aluminium, oder aus HPL ( High Pressure Laminate ) geeignet für den Außenbereich.

Die Langlebigkeit der Möbel ist mit einer ordentlichen Verwendung verbunden; die Pflege ist leicht: einfach die Möbelteile mit Wasser und neutraler Seife reinigen, evtl. mit der Hilfe einer weichen Bürste, dann mit kaltem Wasser abspülen und trocknen lassen. Die Verwendung von aggressiven Reinigungsmitteln und Chlor sind absolut zu vermeiden.

Wir bitten, die auf unseren 'Care and maintenance' Brochüre angegebene Empfehlungen, aufmerksam zu folgen. Die Brochüre wird mit den Möbel geliefert. Die Langlebigkeit der Möbel ist mit einer ordentlichen Verwendung verbunden. Wir lehnen jegliche Verantwortung für missbräuchliche Verwendung ab.

Roberti behält sich das Recht vor, ohne jegliche Benachrichtigung, Änderungen oder Produktverbesserungen vorzunehmen.

*Toutes les structures sont en aluminium et/ou en acier inoxydable traités avec une finition spéciale pour extérieur qui garantie résistance aux agents atmosphériques ainsi que durabilité.*

*Pour les parties tressées on utilise le Sunweave (fil de polyéthylène) et le Sunloom (fil de polyester avec revêtement en PVC); Sunweave et Sunloom sont testés SGS.*

*La collection Portofino a le tressage en Nautic Rope, un fil de polyester très robuste et flexible, avec une forte résistance aux intempéries.*

*Le nouveau tressage SEAROPE, une corde en polypropylène de nouvelle génération conjugue la beauté d'une touche naturelle et une très bonne résistance à l'eau et aux rayons UV.*

*Sunweave, Sunloom, Nautic Rope et Searope sont résistantes à la chaleur et au froid, à l'eau et à la salure ainsi que aux rayons UV.*

*Dans les collections Lipari, Key West, Portofino et Samba Rio on utilise Batyline (originale by Serge Ferrari) et Textilene.*

*Ces tissus en pvc sont ajourés, permettant l'aération et le drainage de l'eau. Batyline et Textilene sont résistants à la chaleur, au froid et à l'eau de mer.*

*Les dessus des tables sont disponibles, en verre lacqué et trempé ou en aluminium, ou en HPL (High Pressure Laminate) adapté pour l'extérieur.*

*La durée des meubles est liée à une utilisation correcte. L'entretien est très simple: il faut laver les meubles avec de l'eau froide et savon neutre en utilisant une brosse souple.*

*Après rincer et faire essuyer à l'air. Il faut absolument éviter l'utilisation de détergents agressifs ou du chlore. Nous conseillons de lire et suivre les instructions indiqués dans la brochure 'care and maintenance' que nous attachons aux meubles au moment de la livraison.*

*La durée des meubles est donc en rapport à un usage et un soin correct: nous déclinons toute responsabilité pour des dégats provoqués par une mauvaise utilisation ou actes de vandalisme.*

*Roberti se réserve la faculté d'apporter des modifications ou améliorations aux produits sans aucun préavis.*

# Fabrics & Covers

## TESSUTI

Roberti propone una vasta gamma di tessuti adatti all'uso esterno con caratteristiche diverse. Tutti hanno un'alta resistenza ai raggi UV. Sono compresi in 3 categorie di prezzo.

**GRUPPO A1** offre una vasta gamma di tessuti adatti ad uso esterno, acrilici (Sunbrella) ed in polipropilene abbinati a imbottiture in poliuretano espanso con uno speciale rivestimento in tela poliestere idrorepellente. I cuscini morbidi degli schienali ed i piccoli cuscini decorativi contengono un mix di chips di poliestere racchiusi in una federa in poliestere - pvc idrorepellente. E' questa la proposta ideale per un cuscino per esterno ove si unisce il comfort di un tessuto alla garanzia di protezione dell'imbottitura.

**GRUPPO B1** I tessuti della categoria B1 sono composti da pvc, poliestere e poliuretano; sono tessuti idrorepellenti. I tessuti B1 abbinati alle imbottiture in poliuretano espanso con speciale rivestimento in tela di poliestere - pvc offrono quindi una quasi totale impermeabilità all'acqua. Vi possono essere piccole infiltrazioni di acqua attraverso le cuciture e quindi per garantire una veloce asciugatura all'interno si raccomanda di aprire le cerniere ed arieggiare l'interno del cuscino regolarmente. I tessuti del Gruppo B1 sono disponibili solo per alcuni modelli della collezione come specificato nel listino prezzi.

**GRUPPO C1** I tessuti della categoria C1 sono composti da pvc, poliestere e poliuretano; hanno una leggera imbottitura in poliestere fissata con termosaldatura a righe orizzontali e sono idrorepellenti. I tessuti C1 abbinati alle imbottiture in poliuretano espanso con speciale rivestimento in tela di poliestere - pvc offrono quindi una quasi totale impermeabilità all'acqua. Vi possono essere piccole infiltrazioni di acqua attraverso le cuciture e quindi per garantire una veloce asciugatura all'interno si raccomanda di aprire le cerniere ed arieggiare l'interno del cuscino regolarmente. I tessuti del Gruppo C1 sono disponibili solo per alcuni modelli della collezione come specificato nel listino prezzi.

I tessuti della categoria A1 possono essere lavati a mano, in acqua fredda (max. 30°C) ed asciugati all'aria. Stiratura a bassissima temperatura. I tessuti delle categorie B1 e C1 devono essere periodicamente puliti con un panno umido e leggero detergente neutro.

Devono essere regolarmente asciugati all'interno aprendo la cerniera e permettendo l'aerazione al fine di evitare il formarsi di muffe. Eventuali macchie devono essere pulite prontamente per evitare che si stabilizzino. Si raccomanda di seguire scrupolosamente le istruzioni di lavaggio e manutenzione indicate nel 'cartellino qualità' fornito coi mobili. Tutti i cuscini sono realizzati esclusivamente in Italia con utilizzo di imbottiture di origine italiana.

## COVERS

Per una migliore protezione dei mobili consigliamo l'uso delle nostre coperture in uno speciale tessuto impermeabile (pvc + poliestere). Le coperture proteggono dalle intemperie e dal depositarsi di polveri e impurità atmosferiche. Le coperture sono disponibili per una parte dei modelli come indicato in listino.

## FABRICS

*Roberti offers a wide choice of fabrics suitable for outdoor use and with peculiar features. All the fabric are UV resistant and have 3 price levels.*

***GROUP A1** offers a wide choice of fabrics for outdoor use, some of them acryl fabric from Sunbrella, some others polypropilene fabrics, all combined with a polyurethane padding protected by a polyester cover, water repellent. The soft back pillows and the decorative pillows contain a mix of polyester chips inside a polyester, water repellent, cover. This is the ideal proposal for cushions you can leave outside, combining the comfort of a fabric with the full protection of the padding.*

***GROUP B1** the fabrics B1 - composed of pvc, polyester and polyurethane - are water repellent. The B1 fabrics combined with padding polyurethane foams completely protected by a polyester cover offer the best waterproof solution. It can happen that some water enters through the stitches; we therefore suggest to regularly open the fabric cover zipper to permit ventilation to the inside part of the cushion. Fabrics B1 are available only for part of the collection, as specified in the pricelist.*

***GROUP C1** the fabrics C1 - composed of pvc-polyester and polyurethane - have a light polyester padding fixed by a thermowelding with horizontal stripes and are water repellent. The C1 fabrics combined with padding polyurethane foams completely protected by a polyester cover offer the best waterproof solution. It can happen that some water enters through the stitches; we therefore suggest to regularly open the fabric cover zipper to permit ventilation to the inside part of the cushion. Fabrics C1 are available only for part of the collection, as specified in the pricelist.*

*All fabrics A1 can be hand washed on cold water (max. 30°C) and air dried. Ironing only at very low temperature. Fabrics B1 and C1 must be regularly cleaned with a wet cloth and a mild detergent, but not soaked. It is also recommendable to open zippers of fabric covers regularly in order to permit ventilation inside the cushion to avoid mold stains. Stains should be immediately removed to prevent they leave an imprint. It is highly recommendable to read and carefully follow all suggestions given in the 'care and maintenance' leaflet delivered with the furniture. All cushions are entirely MADE IN ITALY using paddings of italian origin.*

## COVERS

*For an additional protection of the furniture we suggest our special covers, water repellent, made of pvc and polyester. The covers protect from weathering as well as from dust and atmospheric impurities. The covers are available for part of the models as indicated in the pricelist.*

## STOFFE

Roberti bietet eine breite Auswahl an Stoffen für den Außenbereich mit unterschiedliche Eigenschaften. Alle Stoffe haben eine starke Beständigkeit gegen UV-Strahlen. Es gibt 3 verschiedene Preiskategorien.

**GRUPPE A1** Breite Auswahl an Stoffen die für den Außenbereich geeignet sind: Acryl-Stoffe von Sunbrella und neue Polypropilene-Stoffe. Die Kissen haben Polyurethanschaum überzogen mit einem Polyestergewebe, wasserdicht. Die weichen Rückenkissen und die kleine Wurfkissen enthalten ein Mix aus Polyester-Chips und sind durch einer Polyester Hülle, wasserabstoßend, geschützt. Diese Kombination Stoff+geschützte Kissenfüllung ist die beste Lösung für den Außenbereich und bietet den richtigen Komfort sowie eine lange Haltbarkeit des Kissens.

**GRUPPE B1** Die Stoffe der Kat. B1 sind aus PVC, Polyester und Polyurethan und wirken wasserabstoßend. Der Schaumstoff ist aus Polyurethan überzogen mit einem Polyestergewebe, wasserdicht. Sollte etwas Wasser eindringen durch die Naht, empfehlen wir die Kissen abtrocknen zu lassen: einfach den Reißverschluss öffnen und das Kissen-Kern belüften und abtrocknen. Die B1 Stoffe sind nur für einige Modelle verwendbar, die auf der Preisliste angegeben sind.

**GRUPPE C1** Die Stoffe der Kat. C1 sind aus PVC, Polyester und Polyurethan und haben einen leichten Polyester-Schaum der mit einer waagerechten Heißversiegelung befestigt ist. Der Schaumstoff ist aus Polyurethan überzogen mit einem Polyestergewebe, wasserdicht. Sollte etwas Wasser eindringen durch die Naht, empfehlen wir die Kissen abtrocknen zu lassen: einfach den Reißverschluss öffnen und das Kissen-Kern belüften und abtrocknen. Die C1 Stoffe sind nur für einige Modelle verwendbar, die auf der Preisliste angegeben sind.

Die Stoffe der Kat. A1 sind Hand waschbar (kaltes Wasser max. 30°C) und haben an die Luft trocknen. Bügeln nur mit sehr niedriger Temperatur. Die Stoffe der Kat. B1 und C1 müssen regelmäßig mit einem feuchtem Lappen und neutraler Seife gereinigt werden. Um Schimmel-Bildungen zu vermeiden, empfehlen wir ein regelmäßiger Kissen-Abtrocknen. Stoff-Hülle öffnen und das Innenleben des Kissens belüften und abtrocknen. Ev. Flecken müssen sofort entfernt werden. Wir bitten die Pflegehinweise auf unseren Qualitäts-Schild (geliefert mit der Möbel) genau zu beachten. Alle Kissen sind ausschließlich in Italien hergestellt mit italienischem Schaumstoff.

## COVERS

Für einen besseren Schutz der Möbel, bieten wir wasserdichte Schutzhüllen aus Pvc und Polyester. Dadurch werden die Möbel vom Unwetter sowie auch vom atmosphärischen Unreinheiten bewahrt. Die Schutzhüllen sind nur für sämtliche Modellen - wie in der Preisliste angegeben - erhältlich.

## TISSUS

*Roberti offre une large gamme de tissus conseillés pour l'extérieur avec des caractéristiques différentes. Tous les tissus sont résistants aux rayons UV et sont représentés en 3 catégories de prix.*

***GROUPE A1** offre une large gamme de tissus pour l'extérieur avec des rembourrages des coussins en polyurethane revêtus avec un tissu en polyester imperméable. Une partie des tissus est en acryl (Sunbrella) et une partie en polypropilene. Le rembourrage des coussins souples des dos et les petits coussins décoratifs sont en chips de polyester enfermés dans une housse en polyester imperméable à l'eau. Cela est la proposition idéale pour des coussins pour l'extérieur tout en assurant le confort des tissus et la résistance à l'eau des rembourrages.*

***GROUPE B1** Les tissus B1 sont en PVC, Polyester et Polyurethane; ils sont des tissus hydrofuges. Les mousses de rembourrages sont toujours enfermées dans les revêtements en polyester ainsi le coussins est presque complètement imperméable. Il peut y avoir un passage d'eau très léger à travers les coutures. Nous conseillons donc de ouvrir les fermetures éclair et faire sécher la partie intérieure du coussin avec régularité. Ça évitera la formation de moisissure à l'intérieur. Les tissus B1 sont disponibles uniquement pour certains modèles de la collection, comme spécifié dans la liste des prix.*

***GROUPE C1** Les Tissus C1 sont en PVC, Polyester et Polyurethane; ils ont un rembourrage léger en polyester fixé par thermoscellage à bandes horizontales. Il sont des tissus imperméables à l'eau. Les mousses de rembourrages sont toujours enfermées dans les revêtements en polyester ainsi le coussins est presque complètement imperméable. Il peut y avoir un passage d'eau très léger à travers les coutures. Nous conseillons donc de ouvrir les fermetures éclair et faire sécher la partie intérieure du coussin avec régularité. Ça évitera la formation de moisissure à l'intérieur. Les tissus C1 sont disponibles uniquement pour certains modèles de la collection, comme spécifié dans la liste des prix.*

*Tous les tissus A1 peuvent être lavés à la main avec eau froide (max. 30°C) et doivent sécher à l'air. Tous les tissus B1 et C1 peuvent être nettoyés en utilisant un chiffon souple et une solution nettoyante douce, sans les laver. S'il y a des taches il faut les enlever au plus vite avant qu'elles se fixent.*

*Nous conseillons de faire sécher tous les coussins avec régularité en ouvrant la fermeture éclair des housses et permettant la ventilation. Toutes les instructions pour l'entretien et nettoyage indiquées dans la "fiche qualité" fournie avec les meubles sont à suivre avec attention. Tous les coussins sont réalisés exclusivement en Italie en utilisant des matériaux de rembourrage "made in Italy".*

## COVERS

*Pour une meilleure protection des meubles nous conseillons des housses en tissu pvc et polyester imperméables. Les housses protègent des intempéries ainsi que des poussières et impuretés atmosphériques. Elles sont disponibles pour une partie des modèles comme indiqué dans la liste des prix.*

Un atelier in continuo fermento, a metà strada tra un laboratorio creativo ed un'officina di produzione. Fondato da Adriano Balutto si è arricchito della presenza della figlia, l'arch. Veronica Balutto, laureata all'Istituto Universitario di Architettura di Venezia ( IUAV ). Dal 2006 e' anche giornalista pubblicista.

*Naturally born for creativity and planning, Studio Balutto has always been in movement to research new innovative ideas to be up to the expectations of the market trends and requests. Founded by Adriano Balutto, in the last years the atelier has had the creativity support of his daughter arch. Veronica Balutto, graduated at the University Institute of Architecture in Venice. Since 2006 she is also a journalist.*
